

### Product description

IAC SD4343 mountings are moulded from high grade synthetic rubber, in 3 different shore hardness's. Threaded inserts are embedded into the top and steel re-inforcing plates at the bottom of the mounting.

In case of replacement, the unique colour code allows you to determine the rubber hardness of the element at anytime, despite many years of use.

### Application

The IAC SD4343 isolators can be used in a wide range of applications including: air handling units, fans, pumps, compressors, chillers, floating floors and isolation of studios and chambers

Type	Colour	Hardness (Sh.)	Max. Load (kg)	Deflection (mm)	Dimensions (mm)							
					L1	W	H	L2	T	D	B	M
IAC SD4343H	White	40	80	10	110	65	54	84	7	11	5	M12
IAC SD4343R	Red	50	115	10	110	65	54	84	7	11	5	M12
IAC SD4343S	Black	60	165	10	110	65	54	84	7	11	5	M12
